

RADIOLOGY ASSOCIATES EXAM PREP

Fluoroscopy

- **UGI Series/Small Bowel**
 - Nothing to eat or drink eight (8) hours prior to the study.
 - Exam could take up to 3-4 hours.
- **Barium Enema**
 - Pick up a Barium Enema kit at our office at least two (2) days before your study and follow the enclosed instructions.
- **IVP**
 - Do not eat or drink anything for two (2) hours prior to your scheduled exam.

Ultrasound

- **Abdomen**
 - Nothing to eat or drink eight (8) hours prior to study.
- **Renal, Pelvis, or OB/GYN**
 - Drink 4-5 8oz. glasses of water (24-36 oz) 1 hour prior to exam.
 - DO NOT urinate. A full bladder is essential. (Note: The slower the bladder fills, the less discomforting)

CT Scan

- **Abdomen/Pelvis (No IVP)**
 - Pick up oral contrast preparation at our office within 24 hours of scheduling your examination and follow the enclosed instructions (if exam requires contrast).
- **Abdomen/Pelvis with IVP**
 - Nothing to eat or drink two (2) hours prior to exam.
- **Chest**
 - Nothing to eat or drink two (2) hours prior to exam.
- **CT Colonography**
 - Pick up a prep kit at our office within 24 hours of scheduling your examination and follow the enclosed instructions.

Magnetic Resonance Imaging (MRI)

- **MRI of the Abdomen/Pelvis**
 - Nothing to eat or drink four (4) hours prior to your examination.
- **Any MRI with sedation**
 - Nothing to eat or caffeine (4) hours prior to your examination.
 - Must arrive 45 minutes prior to scheduled appointment time with a driver.
